The Indian Institute of Welding (IIW) India, a member society of the International Institute of Welding (IIW), celebrates its 50 years of eventful journey this year. To mark this occasion, IIW India is organizing the National Welding Seminar – the biggest in India. The seminar aims to bring together welding professionals, researchers, and educators to discuss the latest advancements in welding technology.

The seminar will cover a wide range of topics, including welding processes, materials, and applications. It is anticipated to attract leading experts from across the globe, making it a truly international event. The seminar will also feature keynote speeches, workshops, and panel discussions designed to foster knowledge exchange and collaboration among participants.

IIW India, as a member of the IIW, has a long-standing tradition of promoting welding education and research in India. The organization has been instrumental in developing welding standards and training programs that are in line with international standards. The seminar is an opportunity for IIW India to showcase its contributions to the welding community and to continue its commitment to advancing welding technology.

With the seminar scheduled to take place in May, IIW India is looking forward to welcoming participants from across the world. The event promises to be a landmark occasion in the welding community and a significant milestone for the Indian welding industry.
